

**Dominique STAL - Expert**

**Organizes the next international sale of  
Modern and Contemporary painting,  
sculpture and photo**

**To PARIS DROUOT  
July 7<sup>th</sup> 2011  
by Master Bertrand Fraise Auctionner**

**Artists !**

You are an artist and you want to be quoted by an official auction, you can participate in this sale in sending me, without obligation on your part, a file containing a CV and photos of 4 or 5 of your works, medium format, available.

**Before 29<sup>th</sup> April 2011 Closing date catalog**

For this sale should be chosen works, paintings, sculptures and photographs, with a usual price higher or equal to 1500 euros. We can also free your work appraised.

The quotation (fair value, point value) is essential for your painting or sculpture you and for your collectors and professionals who will accompany you on the different international markets (Buyers, internet).

To do this, it must be sold by public auction by an auctioneer of your nearest public money, in sales of Contemporary Art specialist and cataloged for modern and contemporary art each year.

A reserve price when the sale is defined in terms of value for your points. It is desirable that your collectors are informed of this sale to come and support you, you who have never spent in public auction, buy and sell works cataloged rather than OTC.

This enables you to be sold and to be officially listed by the minutes of the auction, thereby returning to the Art Market International, with the recognition of your art and visibility. Do not overlook the importance of listing in case succession, liquidation or loss of property.

If this auction interests you, thank you send me your application, stating your name, surname, address and phone number to the attention of:
